The Proginov solution is a comprehensive ERP software suite. It addresses the problems of distribution networks in the broad sense.

Improve your management

Proginov ERP supports you in coordinating and managing your stores, buying groups and warehouses, in real time. This solution optimises the management of all your goods flows and financial flows, from the point of sale to the buying group.

- **Structure** your information system
- **Obtain** reliable indicators that can be used in real time
- **Reduce** lead times and delivery times, keep inventory to a minimum and avoid stock-outs
- **Share** and process data faster
- **Satisfy** your customers and constantly adapt to their needs
- **Expand** your sales
- **Increase** the productivity of your teams
- **Manage** your business in real time
- **Increase** your company's profitability

Buying and distribution groups

For buying groups and distribution networks that want a one-stop solution for all their needs.

- // Remote access to buying group data
- // Product databases
- // Data exchange platform (suppliers, stores, customers)
- // Store referencing
- // Purchasing files
- // Logistics - WMS
- // Optimisation of procurement
- // Multi-pricing

Specialised store networks

For stores and specialised networks that manage multiple distribution channels.

- // Inter-store transfers
- // Order consolidation
- // Commercial operations and discounts
- // Integrated e-commerce portal
- // Checkout station management

Food store networks

For stores and food distribution networks that require precise management of fresh foods and ultra-fast payment processing.

- // Intuitive entry, short learning curve
- // Stand-alone mode (payment processing terminal in backup mode)
- // Dual screen management
- // Cash register weighing management (IPFNA test certification)
- // Mobile POS on tablet

Clothing store networks

For shops and networks that manage sizes and colours and want to boost sales.

- // Seasons and restocking
- // Special offer management (emailing, etc.)
- // POS terminals: returns, credit notes, refunds
- // Loyalty, discount and gift vouchers
- // Inventory management
- // Reservations
- // Store business intelligence
