**The Proginov ERP system is a comprehensive management and production solution. It addresses the problems of agri-food sectors, from production to distribution.**

#### **Improve your management**

Proginov ERP supports you in coordinating and managing your agri-food organisation in real time, including purchasing, inventory, production and distribution. The solution optimises the management of your goods flows, from production or raw materials sourcing to product distribution.

#### **Proginov's solution can be used to:**

- **Structure** your information system
- **Obtain** reliable indicators that can be used in real time
- **Keep** inventory to a minimum and avoid stock-outs
- **Share** and process data faster
- **Reduce** the time-to-purchase and time-to-sale
- **Satisfy** your customers and constantly adapt to their needs
- **Expand** your sales
- **Increase** the productivity of your teams
- **Manage** your business in real time
- **Increase** your company's profitability
- **Track** margins and cost prices

## Disassembly production

For meat and fish and dairy processing industries

- // Bill of materials and routing management
- // Disassembly / assembly
- // Workshop production tracking
- // Scheduling / planning
- // Quality control, time and consumption recording
- // Weighing management

## Processed foods

For manufacturers that produce ready meals, dairy products, bakery items

- // Requirements planning
- // Calculation of Overall Equipment Effectiveness (OEE)
- // Formulation
- // Commercial operations management
- // Ingredient quantities, measurements and cooking management
- // Forecast, Production Schedule, Sales and Operations Plan
- // Allergen and nutritional information management

## Food product suppliers

For suppliers of fresh and frozen products, fruits & vegetables

- // Best-before and use-by date management
- // INCO labelling
- // Inventory tracking
- // Freight and stock in transit
- // Product batch characteristics
- // Complex fee calculations in purchasing and sales
- // Margins and cost prices
- // Variable weight product management
