The Proginov ERP system is a comprehensive management and production solution. It addresses the problems of the packaging and container sectors, from design to production to distribution.

Improve your management

Proginov ERP supports you in coordinating and managing your projects in real time. Whether you work with plastics, cardboard, paper, wood, glass, packaging for food, cosmetics or industrial products, Proginov manages all the aspects involved. The Proginov ERP solution optimises the management of your goods flows and financial flows, from production or raw materials sourcing to product distribution.

Proginov's solution can be used to:

- **Structure** your IT system
- **Obtain** reliable indicators that can be used in real time
- **Keep** inventory to a minimum and avoid stock-outs, reduce time-to-purchase and time-to-sale
- **Share** and process data faster
- **Satisfy** your customers and constantly adapt to their needs
- **Expand** your sales
- **Increase** the productivity of your teams
- **Manage** your business in real time
- **Increase** your company's profitability
